

Headlines of paper beads with black stems along with large black beads. Paper leaves, Amberl's Jewels

Small paper leaves and the purple forms are strung together with beads by using elegant techniques. Movement of a crease, and tracing, and creative jewelry is made using paper beads. The beads are made by rolling a piece of paper over a wire and then rolling it out from the wire. The beads are then finished with a variety of colors. Paper comes in such a variety of colors whether purple or blue and will surely become a well-used material in the future.
