

Case Study No.16

## CREATIVITY CAN: TURN THIS MAGAZINE INTO A MIRROR.

Fig 1

Instead of throwing it away after she's read it, Hanan Yanny gives magazines like this a second life. By hand-rolling and glueing reams of paper, she's created a way to recycle publications into original pieces of décor and jewellery. She helps the community by employing previously disadvantaged women to make her innovative products.

*Come see how other creative thinkers are adding value to our world.*
